

Options Selection Menu

In the Options selection view you can touch any of the buttons to load the selected tool within the Additional Features view area:

All of the buttons in the “Additional Features” area opens a tool to do specific calculations not included in the real HP-12C. A brief description of them is in the following table. To get a detailed description, select the desired topic in the list at the left under the “Options” subtitle.

Button	Action
Amortization Table	Shows up the complete Amortization schedule of a loan according to the values stored in the “n”, “i”, “PV” and “PMT” financial registers and the payment mode (“BEG” or “END”) setting.
Black-Scholes OVM	Shows the Black-Scholes Option Valuation Model tool to calculate the value of a CALL and PUT options.
Bond Calculation	Shows Bond calculation tool with Annual or Semi-annual bonds with Actual or 360 days calendars.
Cash Flows	Shows up a tool to edit and calculate regular or variable interval cash flows entries.
Credit Line Account	Shows a tool to manage free date based cash flows and interest rates like in a family loan or a bank credit line.
Currency Exchange	Shows a tool to convert a currency amount in any other currency. The rate between the currencies can be updated “on-Line” or entered manually.
Percent & Int. Conv.	Shows up a tool to calculate five type of problems. The Bill-Tip-Total-Split; the Price-Cost-Margin & Markup; the Percent Change; the Percent of Total; and interest conversion problems.
Programs	Shows up a tool useful to edit and debug programs that allows to execute one line at a time with "Undo".
Scientific Functions	Shows up a extended set of math and scientific functions, including trigonometric, hyperbolic, combinations, permutations, angular conversions, etc...
Statistics & Forecast	Shows up a tool to edit and calculate statistic data including four common Curve-Fitting models.
SOLVER	Shows up a tool to enter, edit and solve equations. Each variable can be calculated knowing the others.
Units Conversion	Shows up a tool to convert or edit among different physical units grouped in categories.

Toolbar Button Action	
	Interface Orientation is set to automatic. The RML-12 Finance Center will rotate and adjust its layout to match the current iPad orientation.
	Interface orientation is locked. The RLM-12 Finance Center will keep its layout regardless of the iPad orientation.
	Shows Help View with the Overview topic selected.
	Pop up the Action Menu for the Option Selection View (see below).
	Shows the “general Settings” view to customize the RLM-12 Finance Center application.

Actions Menu Items	
Load Data File	Show the file dialog to load a previously saved data file.
Save Data File	Show the file dialog to save the current content of the Program Memory, Stack, Financial and Storage registers.
Backup All (*)	Build an email attaching a backup compressed file with all the content of the application’s Document directory.
Cancel	Close the menu.

(*): To restore a backup compressed file, first exit the RLM-12 Finance Center application, send the backup email to the iPad mail account. Open the message with the Mail app and click in the attached backup file.
