

# Currency Exchange “Pro” Tool

The RLM’s 12C has a convenient Currency Exchange tool to quickly convert amounts between two currencies. The exchange rate can be manually stored, calculated or obtained on-line from the Google Finance website.

To show the “Currency Exchange” tool, touch the **OPT** and select the “Currency Exchange” option.

$$\text{(Currency A)} = \text{Rate} * \text{(Currency B)}$$

The Currency Exchange tool works with two currencies at a time and a rate of conversion between them. The amount of the first and second currencies as well as the rate value are stored in variables. So, the **BLUE** (variable) buttons calculates the corresponding variable if the previously pressed key was also a **BLUE** button, otherwise they store the displayed number in the variable. See the examples below to have a better understanding about this.

### Example: On-line Rate (requires Internet connection)

How many European Euros (EUR) are 46,820 Chilean pesos (CLP)?

Keystrokes	Description
[Select]	Shows the currency selection list.
EUR	Select the EUR row in the left list to assign Euros to Currency A.
CLP	Select the CLP row in the right list to assign Chilean pesos to Currency B.
[Done]	Touch the "Done" button to get back to the calculator with the selected currencies.
[⚡ Get Rate ⚡]	Wait until the calculator fetches the current rate between EUR and CLP from Google Finance website.
Type "46820" [CLP]	Enters the CLP amount.
[EUR]	Calculates the amount in Euros. <b>Result = 61.81</b> (assuming a rate of 757.47 CLP/ EUR)

### Example: Manually Input Rate

Convert 135.00 Hong Kong dollars (HKD) to U.S. dollars (USD) if 1.0 HKD are equal to 0.1282 USD.

Keystrokes	Description
[Select]	Shows the currency selection list.
HKD	Select the HKD row in the left list to assign Euros to Currency A.
USD	Select the USD row in the right list to assign Chilean pesos to Currency B.
[Done]	Touch the "Done" button to get back to the calculator with the selected currencies.
Type "0.1282" [Rate]	Enters the exchange rate.
Type "135" [HKD]	Enters the HKD amount.
[USD]	Calculates the amount in USD. <b>Result = 17.31</b>
