

Hyperbolic Menu

This menu offers a complete set of hyperbolic functions. To show it, in the main menu touch the “**Math**” button and select the “**HYP**” tap option.

[SINH]	Calculates the hyperbolic sine.
[COSH]	Calculates the hyperbolic cosine.
[TANH]	Calculates the hyperbolic tangent.
[ASINH]	Calculates the hyperbolic inverse sine.
[ACOSH]	Calculates the hyperbolic inverse cosine.
[ATANH]	Calculates the hyperbolic inverse tangent.
[π]	Enters the number “ π ” (3.1415...) into the calculator.
[e]	Enters the number “e” (2.7183...) into the calculator.
